

Zaragoza, January 1st, 2015

ACADEMIA GENERAL MILITAR

General Director
Zaragoza

Dear Sir,

The Spanish Academia General Militar (AGM), center where the Spanish army officers are educated and formed, is deeply pleased to announce that the 4th International Symposium on the Development of Military Academies (ISoDoMA) will be held in Zaragoza city (Spain) from 20th to 22nd May, 2015.

ISoDoMA is an international meeting in which representatives of military academies around the world participate with the aims to bring together to analyze and discuss issues of common interest related to the processes of cadet education while providing the opportunity to strengthen ties and joint efforts.

Since the first meeting in 2007, the ISoDoMA's Symposium has contributed to promote the multinational cadets' education and training by improving cooperative exchanging programs, sharing knowledge and debating opinions with regard to current military academic development.

For this Symposium, I cordially invite you and your Officers, Professors and Schoolmasters to actively attend and take part in the international sessions. This year's main topic is:

“Comprehensive Education for Officers to face New Security Challenges”

I encourage you to appoint qualified personnel to deal with the different subjects your Academy might be interested in, following the spirit that drives this forum attendance. In the attached note the information about the event development and panels can be found.

Please, notify your staff to contact our project coordinator, Major José Risco, via e-mail at jrissal@et.mde.es and agm-comunicacionsocial@et.mde.es to settle the basis for coordination.

We are looking forward to seeing you and your outstanding lecturers here at the AGM.

Yours sincerely,

Jerónimo de Gregorio y Monmeneu,
Brigadier General of the Spanish Army
Commandant of the Academia General Militar
